

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

embarrassing. Apparently the senders of such literature are unmindful of the fact that in these days of specialization it is impossible for any one person to be seriously interested in all the botanical sciences and arts, and think that every one who belongs to a botanical society or is called a botanist should be interested in all botanical literature; or else they find it easier to waste a certain percentage of their separates than to prepare a new mailing list of presumably interested persons for each paper they publish. Perhaps the time is not far distant when on account of its indefiniteness the term "botanist" will be as little used as "naturalist" and "biologist" are now, and persons who work with plants will be more specifically designated as taxonomists, physiologists, geneticists, ecologists, phytogeographers, etc."

ERRATA

We regret to be obliged to print the following corrections to the article on "The Genus *Cetraria*," etc., *TORREYA* 15: 213-230. 1915. The author's copy was correct.

Page 216: † after "*vulgaris*," line 28, should follow with its footnote, "1910," line 6, page 217, *i. e.*, the footnote on page 216 under the † is the type locality, and original description of *C. hiascens* var. *macrophylla*.

Page 218: Omit under fig. 2, "(reduce to 2 in. wide)." These were pencil instructions given to cut maker, and should not have been printed.

Page 219: † following "*vulgaris*," line 30, should be substituted by two asterisks—a method used to denote forms below species. The "† littoral examples," last line on page 219 should have been on the bottom of page 221, and a † should have followed the word "olivaceous," line 5 of same page.

Page 222: The * and †, lines 5 and 7, should have appeared on page 222, the * after "1850)" line 14, the † after "1850)" line 19, *i. e.*, the first footnote, *, page 222, is original description for *C. islandica* γ *tubulosa*, page 221; the second footnote, †, page 222, the type locality and original description for *C. islandica* § *erinacea*, page 221.
